Greetings!

Heaps of thanks to all who sent in data for our "Ye Olde Historical Data" **post, post, post** class reunion booklet. Your information was mostly copied verbatim. Such busy, busy lives! You might be interested in the geographical distribution at 45 years after graduation:

Watertown, Wisconsin - 62

Other places in Wisconsin - 66

Other states :

Alaska - 2	Indiana - 1	New Mexico - 1	Virginia - 1
Arizona - 3	Kentucky - 1	New York - 1	
California - 6	Maine - 1	North Carolina - 1	
Colorado - 1	Maryland - 2	Ohio - 1	
Connecticut - 1	Michigan - 1	Pennsylvania - 2	
Florida - 4	Minnesota - 1	Tennessee - 2	
Georgia - 1	Missouri - 2	Texas - 3	
Illinois - 6	Nevada - 1	Utah - 1	

Other countries:

Germany - 1

South Africa - 1 (deceased)

Those that have departed this world - 23 (listed at the end)

Although the data was collected in 1999 thru 2001, the addresses, phone numbers and email addresses have been updated in the past couple weeks. Thanks go to Ruth Kasten Borbe, Phyllis/Fifi Hertel Block, Eileen Raether Sell and Kathy Reynolds Barbasiewicz for checking on the Watertown folks. I called the Wisconsin outside of Watertown and other states folks to verify their info. A few were not reachable, thus no info or unverified info exists. These are:

Moved to another planet, ...no info:

Robert Bright	Brigitte Fekske	Nancy Klatt Palmeter	Albert Sisson
Art Buske	John Held	Kenneth Kloss	Richard Strahota

Missing verification on something:

Dennis Korth - city verified; no address or phone known
Carol Neitzel - address not verified, phone not in service
Harriet Rieck Brackett - phone & address as listed in directory; email not verified
Romelle Ripley Stefan - email address not verified, rest okay
LuAnn Uttech - address & email address not verified, phone okay
Chuck Zahn - address not verified, no phone listing

If you can plug any of these holes give me a call, drop a note or send an email. And, if you personally have any changes in the next five years, send them. I'll keep the list going.

Lastly, and most importantly: High school is a terrible time to move. When my folks told me we were moving from Waukesha to Watertown I was devastated and insisted I wasn't moving. But, move I did, and found the class of 1959 to be a friendly, welcoming, fun group. Thanks for being kind to the one of the "new kids on the block" and making high school at Watertown High School a great time!

We are going to Europe during 2000 for an extended cruise with the entire family as well as more trips to Florida. We will probably retire there someday unless the West can offer more.

Special Event: I've had a rewarding, comfortable, healthy life so far with no reasons to complain. I've survived a few scares like the Alaska earthquake in 1964 and some harrowing plane trips that could have gone either way, but I'm still here at 58 and looking forward too more.

Gorder, William H./Bill (Carol Dianne); 6751 Country Club Road SW, Rochester,
Minnesota 55902; 507-282-2029; w.gorder@ieee.org

Bill – I have been working for IBM in Rochester, Minnesota as an electrical engineer ever since graduation from college. Carol and I have discussed retirement, but so far we haven't taken that step.

Carol – Carol spent many years as a secretary for IBM. She is currently working at IBM in manufacturing.

Kids:

We have three kids ranging in age from 33 to 21. All are relatively close to Rochester. Two are married and one engaged. Since 1999 we have been "empty-nesters". There are no grandchildren yet.

Spare Time: I have been active in the IEEE (Institute of Electrical & Electronics Engineers – a professional organization much like the AMA is for doctors) for about fifteen years. I am an officer at the local level (participating in technical activities) and at the regional level (which is more administration of the organization). I spend an incredible amount of time on IEEE activities (a quote from wife Carol). I am also active in church and serve on several committees. I spend a lot of time on auto maintenance. I am hoping this will drop as I meet my goal of getting my kids trained in maintaining their own vehicles. Right now I qualify for volume discounts at NAPA

(auto parts) and recently delivered 50 gallons of drain oil to the disposal site. We live on a 60 acre farm which is good for a lot more time, especially at certain times of the year. I am a true do-it-yourselfer as the above probably indicates. Carol accuses me of spending more time fixing something than it is worth. I do a lot of reading, both technical and other. Carol enjoys relaxing with a good book or a movie on TV. She is also an active member in two miniatures clubs. We both like camping, although she doesn't share my passions for hiking and bicycling. We both like canoeing. I have other interests competing for time, like photography, but most of those will have to wait until there is more time.

Addendum: The only thing different with the Gorders is we both (Carol and I) retired in June 2000. Carol decided it was time for her and I made a last minute decision and joined her.

Cindy - It seems that every time I respond to one of these reunion inquiries, I have gone through another major life change and this time is no different. Nine years ago, after over twenty-five years of living in Santa Fe, New Mexico, we moved to Denver. My husband sold his construction company and we planned to retire in the "dream home" we had built for ourselves. However, while visiting friends in Denver, we were offered a job, even though we were not looking for one. It sounded too intriguing to pass up. My husband and I are the dorm parents at a boarding high school for religious Jewish girls. WE are surrogate parents to twenty teenage girls from all over the United States and several foreign countries. We feel we have found our true calling. The girls are a delight and wonderful to be with.

Don – ditto!

- Dewey; Watertown, Wis.; Real Estate manager.

Spare Time: The girls keep me pretty busy with doctors/dentist appointments, homework

and everything else that goes into raising teenagers multiplied by twenty. However, I do manage to squeeze time in for my hobby, read; addiction, genealogy. Having summers off gives me a chance to go to Salt Lake City to do research at the Mormon Library.

Dick – I am still working for the World Bank in Washington, DC. Right now I'm in the final stages of putting together urban transportation projects for Moscow and for three cities in the Kyrgyz Republic. The work remains fascinating after nearly 22 years with this organization, although at times it is a bit too demanding. We were on assignment in Moscow for three years between 1993 and 1996. This experience alone could fill a book. We lived in an apartment building built for the Soviet Politburo. The head of the Russian equivalent of our CIA had an apartment right across the hall and was the Russian Prime Minister for a short while. We witnessed first hand Yeltsin's bombardment of the Parliament Building, had a great time attending concerts at the Bolshoi Theater, and were able to cross country ski right outside our building.

Spare Time: camping, 5th wheel; house repairs; computers.

Ponath, John (Liz); 711 Cedarhill Drive, Cincinnati, Ohio 45246; 513-851-0997

John – I'm still a peddler after all these years. However, I'm no longer on the road selling furniture. For the last 23 years I've been selling building products – primarily Kolbe and Kolbe wood windows and doors. Managed to build up a following so it's not as hard as it used to be. On the other hand it's never as easy as I'd like.

Liz – Liz is manager for Ad-Ex International. They are an exhibit display manufacturer with strong ties to IBM. The newest computer equipment is sent to Ad-Ex warehouses. This equipment is to be loaned to prospective customers to try before they buy. IBM salespeople send in requests for these "samples" and it's up to her staff to ship these goods and keep track of them. Liz is the "head librarian" for all the trial IBM computers in the country.

Kids:

-Our two girls, Laura and Julie, are married and living here in Cincinnati. No grandkids yet, but we think we'll be blessed fairly soon. Neither one became the brain surgeon I trained them for, so we're somewhat disappointed. However, they turned out to be solid citizens, and married same. For that we're thankful and proud.

Spare Time: We don't have a whole lot of spare time. When we do get a few minutes it's fun to just relax, read a good book, and in summer putter in the yard. We're pretty much your garden variety home-bodies.

Dreams: "Someday", whenever that is, we'll be traveling the U.S., cruising the Greek Isles, and hanging out at Cannes. But those ventures are the stuff of a sequel to the class of '59 post reunion booklet of 1999. We'll write again.

Kids:

-My daughter, Gretchen, has been married to Tim Rehse for 20 years and they have a daughter, Nicole. After living in California and Tennessee for 14+ years they now moved to Racine, WI. Tim is employed at Peterbuilt Truck Company as a counter manager and Gretchen grooms dogs. My granddaughter, Nicole, and Bryan, her significant other, have 2 children. Felicity is their daughter and Jacob (spelling is correct) their son. They all live in Murfreesboro, TN., which means I don't see them very often.

-My son, Paul Johnson, spent several years in North Carolina and California and then spent some time in the army. Just 1 month after Bob & I were married Paul was sent over to Saudi Arabia where he participated in the Desert Storm War. After his military obligation was completed he decided to come back to Wisconsin to live. He lives and works in Lake Mills.

Dreams: Retirement! Maybe in 2002? We bought a 5th wheel & certainly hope to use it
more. Hope to see Hawaii & Alaska. The above suggestions hit home well. The
married kids still seem to think they own a storage room in our house and our single
son seems to be perfectly content at home!! We have just remodeled our kitchen &
have several more plans for our home (we need time now). We would like to get a part
time home business started and maybe sell our home & move to a smaller one where
we could have more free time.

Special Experience: We have been very happy in our ‘almost’ 35 yrs of marriage and
things have gone fairly smoothly – normal ups & downs of life. This summer our 2 yr.
old grandson – who at the age of 18 months often reacted to stressful situations in life
by holding his breath. Then as CO2 increased in his body, he would start breathing
again – after passing out for a minute or so. In July he did this again, but did not regain
consciousness. His heart was beating, but unconscious. He was taken by ambulance to
the hospital. After approximately 3 hours, Debbie decided to take her 3 ½ yr old
daughter in to see her brother. He was full of tubes, wires, O2, etc. Mikayla didn’t
know anything else to do, but say “Hi, Austin”. He reached for his O2 mask & slowly
waved his little hand at her. God certainly uses children in mysterious ways. The
event sparked a renewal and a revitalization of our faith. How thankful we are!!!
